OBJECTIVE

Motivated Cloud Computing graduate seeking a Cloud Engineer position at Oracle to apply knowledge of Oracle Cloud Infrastructure (OCI), cloud networking, and automation while contributing to reliable and scalable cloud solutions.

HIGHLIGHTS OF QUALIFICATIONS

- Strong understanding of cloud fundamentals including computer, storage, networking.
- Hands-on experience with Infrastructure as Code using Terraform.
- Proficient in Linux and Windows system administration and troubleshooting.
- Basic scripting knowledge in Python and Bash for automation tasks.
- Experience in monitoring system performance and resolving technical issues.
- Strong problem-solving, teamwork, and communication skills.

TECHNICAL SKILLS

- Cloud Platforms: AWS, Microsoft Azure, Google Cloud Platform Cloud Concepts: Virtual Networks (VCN), Subnets, Load Balancers, and IAM.
- Operating Systems: Linux, Windows Tools & Technologies: Terraform, Hyper-V, Virtualization Scripting: Python, Bash, PowerShell (basic)

EDUCATION

- Cloud Computing Technologies
George Brown College | Jan 2026 – Present
- Post-Graduate Certificate Supply Chain Management
Southern Alberta Institute of Technology | Sep 202 – May 2025
- Bachelor of Technology – Electrical & Electronics Engineering
Aug 2016– Jun 2020

PROFESSIONAL EXPERIENCE

Necas Automation (Technical Support) Apr 2023 – May 2024

- Provided first-level technical support for cloud and system-related issues
- Troubleshoot Linux and Windows systems, resolving performance and networking issues
- Monitored system performance and escalated critical incidents to senior engineers
- Assisted users with access control and connectivity issues

Mr. Lube (Sales Representative), Calgary, AB Sep 2024 – May 2025

- Delivered customer service and advised clients on service needs
- Maintained service records and processed transactions accurately
- Collaborated with team members to ensure efficient service delivery Retail Sales.

Loblaws (Customer Service associate), Toronto Aug 2025 – Present

- Assisted customers and handled product inquiries
- Maintained inventory and ensured store organization • Managed POS transactions and resolved customer concerns

PROJECTS

- **AWS Cloud Infrastructure Deployment**
Designed and deployed scalable infrastructure using EC2, S3, and VPC, configuring secure networking with subnets, route tables, and security groups. Implemented IAM roles and monitored performance using CloudWatch to ensure system availability and reliability.
- **Infrastructure Automation using Terraform (AWS):** Automated AWS resource provisioning using Terraform by creating reusable scripts for EC2, networking, and storage, improving deployment consistency and ensuring efficient, error-free infrastructure setup.

CERTIFICATIONS

- AWS Cloud Technical Essentials (Coursera)
- Microsoft Server 2019 Course (Udemy)
- Basic Cyber security (Cisco)
